Objective

Computer Engineering undergraduate with hands-on experience in full-stack web development . Skilled in Java, Python, JavaScript, React.js, Node.js, and SQL, with proven ability to deliver scalable, user-centric solutions in agile environments.

Skills and interests

Programming Languages	Java, Python, JavaScript
Frontend Technologies	HTML5, CSS3, Bootstrap, React.js
Database	MySQL, MongoDB
Version Control System	Git, GitHub
Soft Skills	Problem Solving, Project ownership, Leadership

Education

JSPM's Imperial College of Engineering and Research Nov 2022 - Present
Bachelors of Engineering in Computer Engineering
CGPA: 7.88

Higher Secondary Certificate (HSC) – 67.67% June 2022

Secondary School Certificate (SSC) – 96.60% July 2020

Experience

Web developer intern | ProAzure Software Solutions, Pune Feb 2025- Mar 2025

- Developed and deployed full-stack web applications using **React.js, Node.js, Express.js, and MongoDB**, improving application performance and user experience.
- Designed and maintained a **client-facing real estate business website**, managing requirements, content updates, and deployment to ensure smooth client operations.
- Collaborated with senior developers in an **Agile environment** to troubleshoot issues, optimize features, and meet delivery timelines.

Projects

Shark Tank–Based Business & Investment Platform :

- Designed and developed a **Shark Tank–inspired web platform** that connects startups with potential investors, enabling pitch evaluation and funding insights..
- Implemented features for **startup profiling, idea evaluation, and business analytics**, supporting informed investment decisions..
- Demonstrated strong **problem-solving, system design, and entrepreneurial thinking** through real-world business simulation.

Airplane Management System:

- Developed an Airplane Management System using Java, NetBeans IDE, and SQL to manage flight schedules, aircraft details, passenger records, and bookings.
- Implemented **database-driven operations** for storing and retrieving flight and passenger information efficiently.

Photography Studio Website:

- Designed and developed a professional photography studio website using HTML, CSS, and JavaScript.
- Implemented **responsive layouts, interactive UI components, and SEO-friendly structure** to improve online presence and customer engagement.
- Created separate pages for **Home, About, Services, Portfolio, and Contact**, ensuring structured navigation and improved user experience.

Certifications

- **Full Stack Web Development Certification** (Completed comprehensive full-stack program including hands-on projects.)
- **Citizen Scientist – NASA** (Contributed to asteroid detection under the International Asteroid Search Campaign (IASC).)
